## "grey list"

*Mexico, 13 February 2026*

Jurisdictions under increased monitoring are actively working with the FATF to address strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. When the FATF places a jurisdiction under increased monitoring, it means the country has committed to resolve swiftly the identified strategic deficiencies

within agreed timeframes and is subject to increased monitoring. This list is often externally referred to as the “grey list”.

The FATF and FATF-style regional bodies (FSRBs) continue to work with the jurisdictions below as they report on the progress achieved in addressing their strategic deficiencies. The FATF calls on these jurisdictions to complete their action plans expeditiously and within the agreed timeframes. The FATF welcomes their commitment and will closely monitor their progress. The FATF does not call for the application of enhanced due diligence measures to be applied to these jurisdictions. The FATF Standards do not envisage de-risking, or cutting-off entire classes of customers, but call for the application of a risk-based approach. Therefore, the FATF encourages its members and all jurisdictions to take into account the information presented below in their risk analysis. As countries consider actions based on their risk analysis taking into account the information below, they should ensure that flows of funds for humanitarian assistance, legitimate NPO activity and remittances are neither disrupted nor discouraged. Countries should also consider their international obligations under United Nations Security Council Resolution 2761 (2024) on humanitarian exemptions to asset freeze measures imposed by UN sanctions regimes.

The FATF identifies additional jurisdictions, on an on-going basis, that have strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. A number of jurisdictions have not yet been reviewed by the FATF or their FSRBs, but will be in due course.

The FATF provides some flexibility to jurisdictions not facing immediate deadlines to report progress on a voluntary basis. The following countries had their progress reviewed by the FATF since October 2025: Algeria, Angola, Bolivia, Bulgaria, Cameroon, Côte d'Ivoire, Democratic Republic of the Congo, Kenya, Lao PDR, Lebanon, Monaco, Namibia, Nepal, South

Sudan, Venezuela, Vietnam, the Virgin Islands (UK) and Yemen.

For these countries, updated statements are provided below.

Haiti and Syria chose to defer reporting; thus, the statements issued previously for those jurisdictions are included below, but it may not necessarily reflect the most recent status of the jurisdictions' AML/CFT regimes. Following review, the FATF now also identified Kuwait and Papua New Guinea.

*Paris, 24 February 2023* - Jurisdictions under increased monitoring are actively working with the FATF to address strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. When the FATF places a jurisdiction under increased monitoring, it means the country has committed to resolve swiftly the identified strategic deficiencies within agreed timeframes and is subject to increased monitoring. This list is often externally referred to as the “grey list”.

The FATF and FATF-style regional bodies (FSRBs) continue to work with the jurisdictions below as they report on the progress achieved in addressing their strategic deficiencies. The FATF calls on these jurisdictions to complete their action plans expeditiously and within the agreed timeframes. The FATF welcomes their commitment and will closely monitor their progress. The FATF does not call for the application of enhanced due diligence measures to be applied to these jurisdictions. The FATF Standards do not envisage de-risking, or cutting-off entire classes of customers, but call for the application of a risk-based approach. Therefore, the FATF encourages its members and all jurisdictions to take into account the information presented below in their risk analysis.

The FATF identifies additional jurisdictions, on an on-going basis, that have strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. A number of jurisdictions have not yet been reviewed by the FATF or their FSRBs, but will be in due course.

Since the start of the COVID-19 pandemic, the FATF has provided some flexibility to jurisdictions not facing immediate deadlines to report progress on a voluntary basis. The following countries had their progress reviewed by the FATF since October 2022: Albania, Barbados, Burkina Faso, Cambodia, Cayman Islands, Gibraltar, Haiti, Jamaica, Jordan, Mali, Morocco, Myanmar, Panama, Philippines, Senegal, South Sudan, Türkiye, UAE, and Uganda. For these countries, updated statements are provided below. The Democratic Republic of the Congo, Mozambique, and Tanzania chose to defer reporting; thus, the statements issued in October 2022 for those jurisdictions are included below, but it may not necessarily reflect the most recent status of the jurisdictions' AML/CFT regimes. Following review, the FATF now also identifies Nigeria and South Africa.

## ALBANIA

Since February 2020, when Albania made a high-level political commitment to work with the FATF and MONEYVAL to strengthen the effectiveness of its AML/CFT regime, Albania has taken steps towards improving its AML/CFT regime, including by demonstrating a meaningful increase in the number of money laundering cases indicted, particularly those stemming from foreign offences where the criminal proceeds were laundered in Albania. The FATF has made the initial determination that Albania has substantially completed its action plan and appreciates Albania's work to address its strategic deficiencies. However, the FATF has not yet decided to authorise an on-site visit to the country to verify the implementation of Albania's AML/CFT reforms. This is because the FATF remains concerned that Albania's apparent plans to establish a Voluntary Tax Compliance (VTC) programme do not comply with the FATF's principles for managing the AML/CFT implications of VTC programmes or FATF's best practices in this area. Albania should ensure that any amnesty provisions included in the VTC law do not present an opportunity for individuals or legal persons to legalise or repatriate assets of unlawful origin and that any criminal amnesty only relates to the previous incorrect or non-reporting of taxable income. Albania should revise its draft VTC law and work with MONEYVAL to ensure

that any VTC law passed or implemented has adequate safeguards to prevent the potential for abuse of the programme for money laundering purposes. Alternatively, it could consider abandoning the planned VTC programme altogether.

## BARBADOS

Since February 2020, when Barbados made a high-level political commitment to work with the FATF and CFATF to strengthen the effectiveness of its AML/CFT regime, Barbados has taken steps towards improving its AML/CFT regime, including by, taking appropriate measures to prevent legal persons and arrangements from being misused for criminal purposes, and by demonstrating that ML investigations and prosecutions are in line with the country's risk profile. Barbados should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) ensuring that accurate and up-to-date beneficial ownership information is available on a timely basis; (2) further pursuing repatriation or sharing of confiscated assets with other countries.

The FATF expresses concern that Barbados failed to complete its action plan, which fully expired in April 2022. The FATF strongly urges Barbados to swiftly demonstrate significant progress in completing its action plan by June 2023 or the FATF will consider next steps if there is insufficient progress.

## BURKINA FASO

Since February 2021, when Burkina Faso made a high-level political commitment to work with the FATF and GIABA to strengthen the effectiveness of its AML/CFT regime, Burkina Faso has taken steps towards improving its AML/CFT regime, including by increasing ML investigations and the use of international cooperation in line with its risk profile. Burkina

Faso should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) updating its understanding of ML/TF risks, including through the revision of the national risk assessment in line with the sectoral priorities identified in its national strategy; (2) strengthening of resource capacities of all AML/CFT supervisory authorities and implementing risk based supervision of FIs and DNFBPs; (3) maintaining comprehensive and updated basic and beneficial ownership information of legal persons and strengthening the system of sanctions for violations of transparency obligations; (4) increasing the diversity of suspicious transactions reporting; (5) establishing procedures for effective implementation of declaration of cross-border declaration of currencies and bearer negotiable instruments; (6) enhancing cooperation between LEAs and prosecutorial authorities combatting TF and conducting TF investigations and prosecutions in line with its risk profile; and (7) implementing an effective targeted financial sanctions regime related to TF and PF as well as risk-based monitoring and supervision of NPOs.

## THE CAYMAN ISLANDS

Since February 2021, when the Cayman Islands made a high-level political commitment to work with the FATF and CFATF to strengthen the effectiveness of its AML/CFT regime, the Cayman Islands has taken steps towards improving its AML/CFT regime, including by advancing ML prosecutions into convictions and demonstrating progress on complex ML cases with a foreign predicate. However, the Cayman Islands should continue to work on implementing its action plan to address its remaining strategic deficiencies, by demonstrating that they are prosecuting all types of money laundering cases in line with the jurisdiction's risk profile and that such prosecutions are resulting in the application of dissuasive, effective, and proportionate sanctions.

The FATF expresses concern that the Cayman Islands failed to complete its action plan, which fully expired in May 2022. The FATF strongly urges the Cayman Islands to swiftly demonstrate significant progress in completing its action plan by June 2023 or the FATF will consider next steps if there is insufficient progress.

dissuasive sanctions for AML/CFT breaches, specifically by taking more enforcement actions, imposing financial penalties, and publishing the results of cases, where appropriate. Gibraltar should continue to work on implementing its action plan to address its strategic deficiencies, including by showing that it is able to pursue more final confiscation judgments commensurate with the risk and context of Gibraltar.

## HAITI

In June 2021, Haiti made a high-level political commitment to work with the FATF and CFATF to strengthen the effectiveness of its AML/CFT regime. The FATF recognises the political commitment expressed at a high level and the efforts demonstrated by Haiti to advance its commitments in the midst of the challenging social, economic and security situation within the country. Haiti should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) completing its ML/TF risk assessment process and disseminating the findings; (2) facilitating information sharing with relevant foreign counterparts; (3) addressing the technical deficiencies in its legal and regulatory framework that impede the implementation of AML/CFT preventive measures and implementing risk-based AML/CFT supervision for all financial institutions and DNFBPs deemed to constitute a higher ML/TF risk; (4) ensuring basic and beneficial ownership information are maintained and accessible in a timely manner; (5) ensuring a better use of financial intelligence and other relevant information by competent authorities for combatting ML and TF; (6) addressing the technical deficiencies in its ML offence and demonstrating authorities are identifying, investigating and prosecuting ML cases in a manner consistent with Haiti's risk profile; (7) demonstrating an increase of identification, tracing and recovery of proceeds of crimes; (8) addressing the technical deficiencies in its TF offence and targeted financial sanctions regime; and (9) conducting appropriate risk-based monitoring of NPOs vulnerable to TF abuse without disrupting or discouraging legitimate NPO activities.

Jamaica should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) including all DNFBPs in the AML/CFT regime and ensuring adequate, risk-based supervision in all sectors; and (2) ensuring that BO definition is in line with the FATF Standards, taking appropriate measures to prevent legal persons and arrangements from being misused for criminal purposes, and ensuring that accurate and up-to-date basic and beneficial ownership information is available on a timely basis to competent authorities.

The FATF again expresses concern that Jamaica failed to complete its action plan, which fully expired in January 2022. The FATF strongly urges Jamaica to swiftly demonstrate significant progress in completing its action plan by June 2023 or the FATF will consider next steps, which could include calling on its members and urging all jurisdictions to apply enhanced due diligence to business relations and transactions with Jamaica.

## JORDAN

Since October 2021, when Jordan made a high-level political commitment to work with the FATF and MENAFATF to strengthen the effectiveness of its AML/CFT regime, Jordan has taken positive steps towards improving its AML/CFT regime, including by conducting inspections of reporting entities including FIs and DNFBPs, pursuing money laundering investigations and prosecutions for predicate offences in line with its risk profile, and conducting outreach on TFS obligations. Jordan should continue to work on implementing its action plan to address its strategic deficiencies, including

by: (1) completing and disseminating the ML/TF risk assessments of legal persons and virtual assets; (2) applying effective, proportionate, and dissuasive sanctions for noncompliance; (3) implementing a sanctions mechanism for violations of the transparency obligations related to legal persons and arrangements; (4) applying effective, proportionate, and dissuasive sanctions in ML cases; and (5) demonstrating that TFS deficiencies are rectified.

Mozambique will work to implement its FATF action plan by: (1) ensuring cooperation and coordination amongst relevant authorities to implement risk-based AML/CFT strategies and policies; (2) conducting training for all LEAs on mutual legal assistance to enhance the gathering of evidence or seizure/confiscation of proceeds of crime; (3) providing adequate financial and human resources to supervisors, developing and implementing a risk-based supervision plan; (4) providing adequate resources to the authorities to commence the collection of adequate, accurate and up-to-date beneficial ownership information of legal persons; (5) increasing the human resources of the FIU as well as increasing financial intelligence sent to authorities; (6) demonstrating LEAs capability to effectively investigate ML/TF cases using financial intelligence; (7) conducting a comprehensive TF Risk Assessment and begin implementing a comprehensive national CFT strategy; (8) increasing awareness on TF

## PANAMA

Since June 2019, when Panama made a high-level political commitment to work with the FATF and GAFILAT to strengthen the effectiveness of its AML/CFT regime, Panama has taken important steps towards improving its AML/CFT regime, including by demonstrating its ability to investigate and prosecute ML involving foreign tax crimes. However, Panama should continue to take action to fully address remaining measures in its action plan as all timelines have already expired in January 2021. Panama should therefore continue to work on implementing its action plan to address its strategic deficiencies, by ensuring adequate verification, of up-to-date beneficial ownership information by obliged entities and timely access by competent authorities.

The FATF again expresses concern that Panama failed to complete its action plan, which fully expired in January 2021. The FATF strongly urges Panama to swiftly complete its action plan by June 2023 or the FATF will consider calling on its members and urging all jurisdictions to apply enhanced due diligence to business relations and transactions with Panama.

In June 2021, South Sudan made a high-level political commitment to work with the FATF to strengthen the effectiveness of its AML/CFT regime. Since February 2010, when Syria made a high-level political commitment to work with the FATF and MENAFATF to address its strategic AML/CFT deficiencies, Syria has made progress to improve its AML/CFT regime. In June 2014, the FATF determined that Syria had substantially addressed its action plan at a technical level, including by criminalising terrorist financing and establishing procedures for freezing terrorist assets. While the FATF determined that Syria has completed its agreed action plan, due to the security situation, the FATF has been unable to conduct an on-site visit to confirm whether the process of implementing the required reforms and actions has begun and is being sustained. The FATF will continue to monitor the situation, and will conduct an on-site visit at the earliest possible date.

## TANZANIA

(Statement from October 2022)

In October 2022, Tanzania made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime. Tanzania will work to implement its FATF action plan by: (1) improving risk-based supervision of FIs and DNFBPs, including by conducting inspections on a risk-sensitive basis and applying effective, proportionate, and dissuasive

sanctions for non-compliance; (2) demonstrating authorities' capability to effectively conduct a range of investigations and prosecutions of ML in line with the country's risk profile; (3) demonstrating that LEAs are taking measures to identify, trace, seize, and confiscate proceeds and instrumentalities of crime; (4) conducting a comprehensive TF Risk Assessment and begin implementing a comprehensive national CFT strategy as well as demonstrating capability to conduct TF investigations and pursue prosecutions in line with the country's risk profile; (5) increasing awareness of the private sector and competent authorities on TF and PF-related TFS; and (6) carrying out the TF risk assessment for NPOs in line with the FATF Standards and using it as a basis to develop an outreach plan.

## TÜRKİYE

Türkiye should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) increasing on-site inspections by supervisors across all sectors, commensurate with risk; (2) enhancing the use of financial intelligence to support ML investigations; (3) undertaking more complex ML investigations and prosecutions; (4) using statistics on confiscation and

terrorist financing to update risk assessments and inform policy; (5) conducting more financial investigations in terrorism cases, prioritising TF investigations and prosecutions related to UN-designated groups, and ensuring TF investigations are extended to identify financing and support networks; (6) concerning targeted financial sanctions, pursuing outgoing requests to third-countries related to UN-designated groups, in line with Türkiye's risk profile; and (7) fully implementing a risk-based approach for the supervision of non-profit organisations to prevent their abuse for terrorist financing, including by taking steps to ensure that audits conducted are risk-based, that supervision does not disrupt or discourage legitimate NPO activity such as fundraising, and that sanctions applied are proportionate to any violations. The FATF continues to monitor that Türkiye's oversight of the NPO sector is in line with the risk-based approach as set out in the FATF Standards.

## UGANDA

Since February 2020, when Uganda made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime, Uganda demonstrated progress, including demonstrating LEAs and judicial authorities apply the ML offence consistent with the identified risks, and establishing and implementing policies and procedures for identifying, tracing, seizing and confiscating proceeds and instrumentalities of crime. Uganda should continue to work to implement its action plan to address its strategic deficiencies, including by: (1) developing and implementing risk-

based supervision of FIs and DNFBPs; (2) ensuring that competent authorities have timely access to accurate basic and beneficial ownership information for legal entities; and (3) addressing the technical deficiencies in the legal framework to implement PF-related targeted financial sanctions. The FATF continues to monitor Uganda's oversight of the NPO sector to encourage the application of the risk-based approach to supervision of NPOs in line with the FATF Standards and mitigate unintended consequences.

The FATF expresses concern that Uganda failed to complete its action plan, which fully expired in May 2022. The FATF strongly urges Uganda to swiftly demonstrate significant progress in completing its action plan by June 2023 or the FATF will consider next steps if there is insufficient progress.

## UNITED ARAB EMIRATES

Since February 2022, when the United Arab Emirates (UAE) made a high-level political commitment to work with the FATF and MENAFATF to strengthen the effectiveness of its AML/CFT regime, the UAE demonstrated significant progress, including by demonstrating a sustained increase in outbound MLA requests to help facilitate the investigation of TF, ML, and high-risk predicates, showing greater use of financial intelligence to pursue high-risk ML threats, and combating UN sanctions evasion, including by demonstrating a better understanding among the private sector.

The UAE should continue to work to implement its FATF action plan by: (1) enhancing and maintaining a

shared understanding of the ML/TF risks between the different DNFBP sectors and institutions; (2) showing an increase in the number and quality of STRs filed by FIs and DNFBPs; (3) ensuring a more granular understanding of the risk of abuse of legal persons and, where applicable, legal arrangements, for ML/TF; and (4) demonstrating a sustained increase in effective investigations and prosecutions of different types of ML cases consistent with UAE's risk profile.

## YEMEN

Since February 2010, when Yemen made a high-level political commitment to work with the FATF and MENAFATF to address its strategic AML/CFT deficiencies, Yemen has made progress to improve its AML/CFT regime. In June 2014, the FATF determined that Yemen had substantially addressed its action plan at a technical level, including by: (1) adequately criminalising money laundering and terrorist financing; (2) establishing procedures to identify and freeze terrorist assets; (3) improving its customer due diligence and suspicious transaction reporting requirements; (4) issuing guidance; (5) developing the monitoring and supervisory capacity of the financial sector supervisory authorities and the financial intelligence unit; and (6) establishing a fully operational and effectively functioning financial intelligence unit. While the FATF determined that Yemen has completed its agreed action plan, due to the security situation, the FATF has been unable to conduct an on-site visit to confirm whether the process of implementing

the required reforms and actions has begun and is being sustained. The FATF will continue to monitor the situation, and conduct an on-site visit at the earliest possible date.

## JURISDICTIONS NO LONGER SUBJECT TO INCREASED MONITORING BY THE FATF

### CAMBODIA

The FATF welcomes Cambodia's significant progress in improving its AML/CFT regime. Cambodia has strengthened the effectiveness of its AML/CFT regime to meet the commitments in its action plan regarding the strategic deficiencies that the FATF identified in February 2019 related to improvements in the legal framework for international cooperation and preventive measures, risk-based supervision of FIs and DNFBPs, improving the quality and quantity of FIU disseminations, increasing and improving investigation and prosecution of ML and asset confiscation and establishing and implementing a legal framework for PF TFS. Cambodia is therefore no longer subject to the FATF's increased monitoring process.

Cambodia should continue to work with APG to sustain its improvements in its AML/CFT system.

## MOROCCO

The FATF welcomes Morocco's significant progress in improving its AML/CFT regime. Morocco strengthened the effectiveness of its AML/CFT regime to meet the commitments in its action plan regarding the strategic deficiencies that the FATF identified in February 2021 related to improving its international cooperation mechanisms, strengthening AML/CFT supervision, strengthening transparency of legal persons by ensuring timely access to accurate beneficial ownership information, strengthening the capacities of the FIU, enhancing capacities to conduct ML investigation and confiscate the proceeds of crime and improving effectiveness of the targeted financial sanctions regime. Morocco is therefore no longer subject to the FATF's increased monitoring process.

Morocco should continue to work with MENAFATF to sustain its improvements in its AML/CFT system.

### [Outcomes FATF Plenary, 20-21 October 2022](#)

### [High-Risk Jurisdictions subject to a Call for Action – 21 October 2022](#)

*Paris, 21 October 2022* - Jurisdictions under increased monitoring are actively working with the FATF to address strategic deficiencies in their regimes to counter money laundering, terrorist financing, and proliferation financing. When the FATF places a jurisdiction under increased monitoring, it means the country has committed to resolve swiftly the identified strategic deficiencies within agreed timeframes and is subject to increased monitoring. This list is often externally referred to as the “grey list”.

The FATF and FATF-style regional bodies (FSRBs) continue to work with the jurisdictions below as they report on the progress achieved in addressing their strategic deficiencies. The FATF calls on these jurisdictions to complete their action plans expeditiously and within the agreed timeframes. The FATF welcomes their commitment and will closely monitor their progress. The FATF does not call for the application of enhanced due diligence measures to be applied to these jurisdictions. The FATF Standards do not envisage de-risking, or cutting-off entire classes of customers, but call for the application of a risk-based approach. Therefore, the FATF encourages its members and all jurisdictions to take into account the information presented below in their risk analysis.

The FATF identifies additional jurisdictions, on an on-going basis, that have strategic deficiencies in their regimes to counter money laundering, terrorist

financing, and proliferation financing. A number of jurisdictions have not yet been reviewed by the FATF or their FSRBs, but will be in due course.

Since the start of the COVID-19 pandemic, the FATF has provided some flexibility to jurisdictions not facing immediate deadlines to report progress on a voluntary basis. The following countries had their progress reviewed by the FATF since June 2022: Albania, Barbados, Burkina Faso, Cambodia, Cayman Islands, Haiti, Jamaica, Jordan, Mali, Morocco, Myanmar, Nicaragua, Pakistan, Panama, Philippines, Senegal, South Sudan, Türkiye, UAE, and Uganda. For these countries, updated statements are provided below. Gibraltar chose to defer reporting; thus, the statement issued in June 2022 for that jurisdiction is included below, but it may not necessarily reflect the most recent status of the jurisdiction's AML/CFT regime. Following review, the FATF now also identifies the Democratic Republic of the Congo, Mozambique, and Tanzania.

The FATF welcomes the progress made by these countries in combating money laundering and terrorist financing, despite the challenges posed by COVID-19.

## ALBANIA
